

Time for a Break - Future Work

What we plan to do next:-

- **Finalize the remaining functionalities**
 - Reports, About Us Page
 - Back-end tasks
- **Work on Feedback collected**
 - Test respondents have shared some suggestions
 - Some features need to be looked into
- **System Design and Architecture**
 - Sketching out the final product design
 - Work on modules and make the necessary documentation
- **Testing**
 - Various forms of testing as required
 - To be initiated once covered in lectures
- **Auxiliary Features**
 - Time permitting, we plan to further expand on some of our features
 - These do not affect the primary working of the application, but they enhance and make it more user-friendly
 - Examples of such features include log-in, online support, importing playlist music, etc.
